Dave,

Hope this finds you well! Owen Dykstra’s team conducted additional survey and we have the benefit of the recent Lidar update, but we’re still finding it challenging to determine what watersheds are coming to the pond feature in your NJDOT wetland mitigation project. Were you able to locate any information on that wetland mitigation project?

Best,
Tony

Subject: Demarest Road NJDOT Wetland Mitigation Project

Dave,

It was a pleasure speaking with you today. I have two screen shots below of the area we discussed where you may have completed a wetland mitigation project on behalf of NJDOT. Do you recall if there was a feature present east of the pond where the light green line is located? We are trying to determine the feasibility of securing a Letter of Non Applicability with respect to FHA. Let us know if you have plans you can share or if you are available to discuss what you encountered while performing this mitigation.
Best,
Tony

Re: Request for Pre-Application Meeting / Block 12008, Lot 23, Sparta Township
Diamond Chip Realty, LLC

Dear Stan:

This firm represents Diamond Chip Realty, LLC, owner of the above-referenced property. As you know, the property is presently improved with a sand and gravel production operation that is operated by the owner’s related company, Diamond Sand & Gravel, Inc. The owner proposed to redevelop the property with a warehouse facility as detailed more specifically in the enclosed concept plan.

We would like to meet with you and the Township Planning Board’s professionals to discuss a site plan application for this proposal. Enclosed for your use please find the applicant’s W9 Form (for purposes of establishing a municipal review escrow account), applicant’s check in the amount of $5,000 (initial escrow fund), and a paper copy of the concept plan. A copy of the concept plan was also submitted to you by separate email and, by copy of this letter, I am submitting three copies of the concept plan in 11 x 17 format to the Planning Board secretary.

Please let me know when we can schedule a concept meeting either in person or by zoom. We can make ourselves available to fit your schedule. Should you need any additional materials prior to the meeting, please do not hesitate to ask.

Re: Sparta Warehouse – Diamond Chip Realty
Request for Consent Resolution
Water Quality Management Plan Amendment
Block 12008, Lot 23
33 Demarest Road
Sparta Township, Sussex County, New Jersey

Dear Ms. Chambers:

On behalf of Diamond Chip Realty, LLC, Natural Systems Utilities (NSU) is hereby submitting the attached documentation to request a consent resolution in support of a site-specific amendment to the Sussex County Water Quality Management Plan being submitted to Sussex County. The proposed Sparta Warehouse project, to be located at 33 Demarest Road on Block 12008, Lot 23, is within the ED – Economic Development Zoning District. The project will have a proposed wastewater generation of approximately 10,000 gpd that will be treated by an on-site wastewater treatment facility.

Benefits of the project include economic redevelopment of an existing quarry site and use of existing rail infrastructure.

The requested municipal resolution endorsing the project should at least include language similar to the following:

**Whereas, the proposed sewer service area will serve an approximately 880,000 square foot warehouse and office development on Block 12008 Lot 23 and is located in the ED – Economic Development Zoning District, wherein warehouses and office building uses are permitted, and therefore the proposal is consistent with the Township of Sparta Zoning Ordinance; and**

**Whereas, the proposed sewer service area is supported by the [insert names and dates of master plan documents] goals and objectives, including [insert specific goals and**
objectives that support the proposal and is therefore consistent with the municipal master plan;

Attached in support of this request please find:

- WQMP Amendment Summary Report (with associated mapping and forms in the appendices)
- WQMP Amendment Application Forms A & B (in Summary Report Appendix)
- USGS Map

Please contact me if you have any questions or require additional information at (908) 431-7068 or jriedel@nsuwater.com.

Sincerely,

Jens Riedel

I. Introduction

The Sparta Warehouses Project by Diamond Chip Realty LLC, proposes two warehouses on the current Sparta Sand & Gravel property located on the 70.9-acre parcel known as Block 12008, Lot 23 in Sparta Township, Sussex County, New Jersey. This site is located entirely within the Highlands Planning Area and Sparta Township is identified as a "Non-Conforming Town" by the Highlands Council.

The site is identified on the 2013 Sussex County Future Wastewater Service Area Map as its own sewer service area (SSA) for NJPDES Permit #NJ0098621 (Sparta Sand and Gravel Co. Inc.) for mining and processing water discharges. This SSA appears both in New Jersey Department of Environmental Protection (NJDEP) and Highlands Council mapping databases. A subsequent Wastewater Service Area Map from 2017 prepared by Sussex County eliminates this SSA, however this revised map has not yet been adopted by NJDEP.

This Site-Specific Water Quality Management Plan Amendment Application proposes to create a new 53-acre SSA boundary to exclude "environmentally sensitive areas" (ESAs) consisting of wetlands and their associated transition areas. No threatened and endangered (T&E) species habitat or natural heritage priority sites are mapped on-site. This SSA will be associated with a new Discharge to Groundwater NJPDES permit for treated sanitary wastewater from the development.

II. Project Description

The project consists of two warehouses with a combined total area of approximately 847,800 square feet of warehouse space and 45,000 square feet of office space located on Block 12008, Lot 23, in Sparta Township, Sussex County, New Jersey (see USGS Map). The lot, located at 33 Demarest Road west of intersection of Route 15 and Limecrest Road, is currently used to process sand and gravel. The site is surrounded by light commercial and agricultural properties. The property is located within the ED (Economic Development) Zone for Sparta Township which allows the construction of warehouses.
Access to the development is proposed to be from Demarest Road at the same location as the current access to the sand and gravel operation with a secondary entrance further west on Demarest Road. The warehouses are aligned parallel to Demarest Road with the larger warehouse closer to Route 15.

III. Projected Wastewater Flow

The project consists of two warehouses with associated office space. The projected wastewater flow is provided below. These flows are calculated in accordance with N.J.A.C. 7:14A-23.3.

**Projected Wastewater Flow**

<table>
<thead>
<tr>
<th>Use</th>
<th>Unit Type</th>
<th>Number of Units</th>
<th>Projected Flow (gpd/unit)</th>
<th>Hydraulic Load (gpd)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Warehouses (847,800 sq ft)</td>
<td>Employee</td>
<td>200</td>
<td>25</td>
<td>5,000</td>
</tr>
<tr>
<td>Office (45,000 sq ft)</td>
<td>Square Foot</td>
<td>45,000</td>
<td>0.1</td>
<td>4,500</td>
</tr>
<tr>
<td>Delivery/Transit Personnel</td>
<td>Person</td>
<td>100</td>
<td>5</td>
<td>500</td>
</tr>
<tr>
<td><strong>Total Projected Wastewater Flow (gpd)</strong></td>
<td></td>
<td></td>
<td></td>
<td><strong>10,000</strong></td>
</tr>
</tbody>
</table>

The above table shows a projected wastewater flow of 10,000 gpd for the development. A new dedicated wastewater treatment facility will be designed and constructed on-site to provide advanced treatment prior to on-site groundwater recharge.

IV. Notification to Affected Government Agencies

In accordance with N.J.A.C. 7:15-3.5(f), the following government agencies have been contacted in relation to this site specific amendment request:

- Sussex County Municipal Utilities Authority
- Highlands Council
- Sparta Township
- Sussex County Division of Planning

3
VII. Conclusion

This SiteSpecific Plan Amendment Application has been prepared to propose a new sewer service area on a portion of Block 12008, Lot 23, located in Sparta Township, Sussex County, New Jersey. This 70.9-acre parcel is proposed to be developed with two warehouses totaling approximately 893,000 square feet.

Current NJDEP mapping shows the site within an existing the SSA for the NJPDES permit related to mining activities. This application proposes creation of a new 53-acre SSA for sanitary wastewater under a new Discharge to Groundwater NJPDES permit. On-site wetlands and buffer areas along the periphery of the property are excluded from the SSA boundary. No threatened or endangered species habitat is present on-site.

In further support of this amendment request, it is noted that the site is within the Planning Area of the Highlands Regional Plan and that the proposed development is consistent with current zoning. Additionally, no adverse impacts to water quality are anticipated as a result of this amendment.

APPENDIX A

Letter of Interpretation and Map
Frank Hunkele  
Diamond Chip Realty, LLC  
33 Demarest Rd  
Sparta, NJ 07871

RE: Freshwater Wetlands Letter of Interpretation: Line Verification  
File No.: 1918-08-0001.1  
Activity Number: FWW140001  
Applicant: DIAMOND CHIP REALTY, LLC  
Block(s) and Lot(s): [12008, 23], Formerly [32, 12]  
Sparta Township, Sussex County

Dear Mr. Hunkele:

This letter is in response to your request for a Letter of Interpretation to have Division of Land Use Regulation (Division) staff verify the boundary of the freshwater wetlands and/or State open waters on the referenced property.

In accordance with agreements between the State of New Jersey Department of Environmental Protection, the U.S. Army Corps of Engineers Philadelphia and New York Districts, and the U.S. Environmental Protection Agency, the NJDEP, the Division is the lead agency for establishing the extent of State and Federally regulated wetlands and waters. The USEPA and/or USACOE retain the right to reevaluate and modify the jurisdictional determination at any time should the information prove to be incomplete or inaccurate.

Based upon the information submitted, and upon site inspections conducted by Division staff on January 13 and April 21, 2015, the Division has determined that the wetlands and waters boundary line(s) as shown on the plan map entitled: "LANDS OF DIAMOND CHIP REALTY, LLC, TAX LOT 23, BLOCK 12008, SPARTA TOWNSHIP, SUSSEX COUNTY, NEW JERSEY, WETLANDS LOCATION SURVEY", consisting of one sheet(s), dated November 26, 2014, last revised April 28, 2015, and prepared by Douglas O. Dykstra, is accurate as shown.

New Jersey is an Equal Opportunity Employer | Printed on Recycled Paper and Recyclable
Wetlands Resource Value Classification ("RVC")

The Department has determined that the wetlands on-site are of Ordinary and Exceptional Resource Value as follows:

Ordinary: Features labeled "Man-made ditch", "Man-made Ponds settling basin", "Ordinary Value Wetlands" and "Man-made Ponds (settling basins from former soil processing). [No wetland buffer]

Exceptional: All remaining wetlands "A", "B", and "C". [150 foot wetland buffer] The wetlands are classified as Exceptional Resource Value because they are associated with the tributaries to Trout production waters.

State Open Water: Within wetlands. [No wetland buffer]

Please note that a buffer is not required adjacent to State Open Waters under the Freshwater Wetlands Protection Act, but a riparian buffer is required under the Flood Hazard Area Control Act. Please note that the riparian zone may exceed the transition area requirements. In order to determine the limits of any riparian zone on site, the applicant may obtain a Flood Hazard Area Verification (see 7:13-6.1). The following wetland areas or points have been considered by the Department to be isolated wetlands and not part of a surface water tributary system: Features labeled "Man-made ditch", Man-made Ponds settling basin", "Ordinary Value Wetlands" and "Man-made Ponds (settling basins from former soil processing). Please note at this time the sinuous feature labeled "Man-made Pond settling basin" is considered a non-regulated feature. The Department reserves the right to reclassify the ordinary resource value wetlands and settling basins within the active "Soil Material Washing Operations" at such a time that the plant ceases operations or is converted to another use. RVC may affect requirements for wetland and/or transition area permitting. This classification may affect the requirements for an Individual Wetlands Permit (see N.J.A.C. 7:7A-7), the types of Statewide General Permits available for the property (see N.J.A.C. 7:7A-4) and any modification available through a transition area waiver (see N.J.A.C. 7:7A-6). Please refer to the Freshwater Wetlands Protection Act (N.J.S.A. 13:9B-1 et seq.) and implementing rules for additional information.

Wetlands resource value classification is based on the best information available to the Department. The classification is subject to reevaluation at any time if additional or updated information is made available, including, but not limited to, information supplied by the applicant.

Under N.J.S.A. 13:9B-7a(2), if the Division has classified a wetland as exceptional resource value, based on a finding that the wetland is documented habitat for threatened and endangered species that remains suitable for use for breeding, resting or feeding by such species, an applicant may request a change in this classification. Such requests for a classification change must demonstrate that the habitat is no longer suitable for the documented species because there has been a change in the suitability of this habitat. Requests for resource value classification changes and associated documentation should be submitted to the Division at the address at the top of this letter.
Pursuant to the Freshwater Wetlands Protection Act Rules, you are entitled to rely upon this jurisdictional determination for a period of five years from the date of this letter unless it is determined that the letter is based on inaccurate or incomplete information. Should additional information be disclosed or discovered, the Division reserves the right to void the original letter of interpretation and issue a revised letter of interpretation.

Regulated activities proposed within a wetland, wetland transition area or water area, as defined by N.J.A.C. 7:7A-2.2 and 2.6 of the Freshwater Wetlands Protection Act rules, require a permit from this office unless specifically exempted at N.J.A.C. 7:7A-2.8. The approved plan and supporting jurisdictional limit information are now part of the Division's public records.

This letter in no way legalizes any fill which may have been placed, or other regulated activities which may have occurred on-site. This determination of jurisdiction extent or presence does not make a finding that wetlands or water areas are “isolated” or part of a surface water tributary system unless specifically called out in this letter as such. Furthermore, obtaining this determination does not affect your responsibility to obtain any local, State, or Federal permits which may be required.

In accordance with N.J.A.C. 7:7A-1.7, any person who is aggrieved by this decision may request a hearing within 30 days of the date the decision is published in the DEP Bulletin by writing to: New Jersey Department of Environmental Protection, Office of Legal Affairs, Attention: Adjudicatory Hearing Requests, P.O. Box 402, Trenton, NJ 08625-0402. This request must include a completed copy of the Administrative Hearing Request Checklist found at www.state.nj.us/dep/landuse/forms. Hearing requests received after 30 days of publication notice may be denied. The DEP Bulletin is available on the Department’s website at www.state.nj.us/dep/bulletin. In addition to your hearing request, you may file a request with the Office of Dispute Resolution to engage in alternative dispute resolution. Please see the website www.nj.gov/dep/odr for more information on this process.

Please contact Patrick Ryan of our staff by e-mail at patrick.ryan@dep.nj.gov or (609) 633-6563 should you have any questions regarding this letter. Be sure to indicate the Department’s file number in all communication.

Sincerely,

Lou Cattuna, Supervisor
Division of Land Use Regulation

7. REGIONAL PLANNING CONSIDERATIONS (Circle response)
Copies of this application and its attachments should be sent to the corresponding regional planning entity if you answer "Yes" to any of the questions below.

A. ARE ANY PORTIONS OF THE PROPOSAL WITHIN THE HIGHLANDS AREA?
   (Yes) No
   
   IF YES, DID YOU SEND A COPY OF THIS APPLICATION TO THE HIGHLANDS COUNCIL?
   Yes (No) Pending review by Sussex County

B. ARE ANY PORTIONS OF THE PROPOSAL WITHIN THE HIGHLANDS PRESERVATION AREA?
   Yes (No)
   
   IF YES, DID YOU SUBMIT A HIGHLANDS PRESERVATION AREA APPROVAL (HPAA)?
   Yes No

C. ARE ANY PORTIONS OF THE PROPOSAL WITHIN A MUNICIPALITY FULLY CONFORMING
   TO THE HIGHLANDS REGIONAL MASTER PLAN (BOTH PLANNING AND PRESERVATION
   AREAS)?
   Yes (No)
   
   IF YES, DID YOU SEND A COPY OF THIS APPLICATION TO THE HIGHLANDS COUNCIL?
   Yes No

D. ARE ANY PORTIONS OF THE PROPOSAL WITHIN THE (NJ REGULATED) PINELANDS AREA OR
   PINELANDS NATIONAL RESERVE AREA?
This General Application should be submitted with all other required forms.

(Rev. 05/10/2016)

Yes  (No)

IF PROJECT IS LOCATED IN THE NJ REGULATED PINELANDS AREA, DID YOU SEND A COPY OF THIS APPLICATION TO THE PINELANDS COMMISSION?
Yes  No

E. ARE ANY PORTIONS OF PROPOSAL LOCATED WITHIN THE HACKENSACK MEADOWLANDS DISTRICT?
Yes  (No)

IF YES, DID YOU SEND A COPY OF THIS APPLICATION TO THE NJ SPORTS AND EXPOSITION AUTHORITY?
Yes  No

F. ARE ANY PORTIONS OF THE PROPOSAL WITHIN AN ENDORSED PLAN APPROVED BY THE STATE PLANNING COMMISSION?
Yes  (No)

IF YES, WHICH ENDORSED PLAN:

G. IS THE PROPOSAL CONSIDERED INFILL DEVELOPMENT AS DEFINED IN N.J.A.C 7:15-1.5?
Yes  (No)

IF YES, PROVIDE JUSTIFICATION:

H. IS THE PROPOSAL IN CONFORMANCE WITH THE MUNICIPAL ZONING?
(Yes)  No

IF NO, EXPLAIN ANY INCONSISTENCY:

I. IS THE PROPOSAL IN CONFORMANCE WITH THE MASTER PLAN(s)?
(Yes)  No

IF NO, EXPLAIN:

This General Application should be submitted with all other required forms.

8. CERTIFICATION:
I HEREBY CERTIFY THAT TO THE BEST OF MY KNOWLEDGE, THE ABOVE INFORMATION IS ACCURATE AND THAT I HAVE THE AUTHORITY TO MAKE THIS APPLICATION TO AMEND THE WATER QUALITY MANAGEMENT PLAN.

1. NAME OF PROPOSAL, PROJECT OR DEVELOPMENT:
   Sparta Warehouse Project

2. LOCATION OF PROPOSAL, PROJECT OR DEVELOPMENT:
   In addition, please note each municipality that is fully conforming (both Planning and Preservation Areas) to the Highlands Regional Master Plan or that is located within the Pinelands Area.
   A. COUNTY: Sussex MUNICIPALITY: Sparta Township

   B. BLOCK/LOT NUMBERS: Block 12008 Lot 23

3. SIGNIFICANT ACTIONS (Check all that apply):
   CHANGES TO SEWER SERVICE AREAS
   ✗ Expansion *The existing SSA is related to sand and gravel
   r Reduction operations, not to sanitary discharge.
   REVISIONS
   r Clarification/Correction of WMP
   r Schedule change for WMP submission
   r Transfers of Sewer Service Areas from _____________ to _____________
   r Transfer of WMP Responsibility from _____________ to _____________

   WASTEWATER TREATMENT FACILITIES (WTF)
   r New or Expanded Discharge to Surface Water
   ✗ New or Expanded Discharge to Ground Water
   r Abandonment of Wastewater Treatment Facility
   r Change in Discharge Location (e.g. DSW to DGW or from tributary to main stem)
   r Increase in projected wastewater flow above that approved in the areawide WQMP

   CAPACITY ANALYSIS
   r New or Modified Wastewater Capacity Analysis (Build-Out Capacity)
   r New or Modified Nitrate Dilution Analysis (Septic Density)

   OTHER
   r ___________________________________________________________________

4. DESCRIPTION OF PROJECT/ACTIVITY
A. DETAIL DESCRIPTION OF PROJECT
   The project proposes the construction of two warehouses with approximately 880,000 square feet total floor area. The buildings will be served by an on-site wastewater treatment system with discharge to groundwater. A new SSA is proposed.
This form should be submitted along with the WQMP Amendment - General Application (FORM A)
(Rev. 05/10/16)

B. TYPE OF WASTEWATER DISPOSAL:
- Surface Water
- Ground Water

C. TOTAL PROJECTED WASTEWATER TO BE GENERATED
- Estimated flow _0.01 MGD_ (specify MGD or GPD)
- Attach Build Out Analysis for project flow ≥20,000 gpd
- Estimated flow calculated pursuant to (check one)
  - N.J.A.C. 7:14A-23.3 (to be used to calculate the design flow for all DSW & DGW facilities
    which utilize advanced sewage treatment systems to treat sanitary sewage prior to
    discharge)
  - N.J.A.C.7:9A-7.4 (to be used to calculate the design flow for all facilities which utilize
    individual subsurface sewage disposal systems to manage their sanitary sewage)

D. RECEIVING Wastewater Treatment Facility: Proposed On-Site WWTF

E. RECEIVING STREAM NAME AND CLASSIFICATION: NA

F. ACREAGE OF AMENDMENT/REVISION WASTEWATER SERVICE AREA CHANGE:
- Increase in sewer service area ___53___ Acres (Attach Build Out Analysis for ≥100 acres)
- Decrease in sewer service area _______ Acres
- Transfer of acreage between two existing approved sewer service areas _______ Acres

5. MAPS AND DRAWINGS
Provide the following maps with the specified features

A. TAX MAP
- Project/activity location
- Block and Lot Numbers
- Acreage of lots identified for project

B. USGS Map
- Project/activity location

C. LAND SURVEY/SITE PLAN/CONCEPTUAL PLAN
- Folded hard copy land survey/site plan/conceptual plan, as applicable, with the following features
designated:
  - title, scale, and north arrow
  - project site boundary;
  - proposed sewer service area defined
  - proposed new or expanded wastewater treatment facility and discharge location.
  - lot lines (block and lot numbers identified, acreage specified)
  - all existing and proposed structures
  - all existing and proposed impervious surface (e.g. roads, parking)
  - water features (streams, intermittent streams, ponds, etc.)
  - wetlands as mapped by N.J.S.A.13-9A-1 and 13:9B-15 or as approved by a valid LOI
  - riparian buffers (300', 150', 50')
  - areas identified as habitat for threatened or endangered species (Rank 3, 4, or 5) on the most
    recent Landscape Project maps
  - Natural Heritage Priority Site areas
  - Coastal Fringe, Coastal Rural, and Coastal Environmentally Sensitive Planning Areas as
defined on the CAFRA Planning Map
beaches, coastal high hazard areas and dunes as defined at N.J.A.C. 7:E-3.22, 3.18 and
3.116 respectively
Environmentally Sensitive Areas protected by Federal 201 grant limitations

D. DIGITAL Map (SHAPE FILE)
\(\checkmark\) Digital shapefile of proposed sewer service area compliant with the Department GIS Mapping and Digital Data Standards.

6. ENVIRONMENTALLY SENSITIVE AREAS:
A. Is there endangered or threatened species habitat as identified by the most current Landscape Project (Rank 3, 4, or 5) within the proposed project site or within the planning area?
\(r\) Yes \(\checkmark\) No
If yes, Attach Habitat Suitability Determination or Habitat Impact Analysis

B. Are there areas mapped as Natural Heritage Priority Sites within the proposed project site of within the planning area?
\(r\) Yes \(\checkmark\) No
If yes, Attach Habitat Suitability Determination or Habitat Impact Analysis

C. Is the project or activity within 300 feet of Category One (C1) waters or any Highlands waterbodies?
\(r\) Yes \(\checkmark\) No

D. Are there areas mapped as wetlands within the proposed project site?
If yes, Attach Letter of Interpretation. Yes, Letter of Interpretation attached.

E. Is the proposal within a Coastal Fringe Planning Area of Coastal Environmentally Sensitive Planning Area?
\(r\) Yes \(\checkmark\) No
If yes, is the proposal to address failing septic or infill development? ______________________

7. Is the project/activity proposing to include ESAs that would otherwise be excluded from being a sewer service area, due to one of the conditions below: (check all that apply).
None
\(r\) Is an area of an endorsed plan identified for growth and approved by the State Planning Commission
\(r\) Is in a Planning Area 1 as defined in the State Plan-Policy Map
\(r\) In an area to accommodate infill development

8. Are there ESAs for which you disagree with the DEP’s environmental data? (Check all that apply)
\(r\) Threatened or Endangered Species Habitat (Rank 3, 4, or 5) identified on DEP’s Landscape Project
\(r\) Natural Heritage Priority Sites
\(r\) Category One Waters (and 300 foot riparian buffers)
\(\checkmark\) Wetlands

9. To rebut any environmental data identifying ESAs on the project site, please identify the ESA and submit the corresponding documentation:
\(r\) Updated Landscape Map documentation
\(r\) Habitat Suitability Determination
\(r\) Habitat Impact Assessment Approved
\(\checkmark\) Valid LOI letter and map survey or valid Freshwater Wetlands Permit

10. If any of the following features/conditions are applicable to the project site, please submit the corresponding documentation:

- Coastal Fringe Planning Area; Coastal Rural Planning Area; Coastal Environmentally Sensitive Area
  - Documentation to support that amendment is to abate an existing immediate public health or safety issue;
  - Documentation that project is to accommodate infill development
- 201 Subject to 201 Facilities Grant limitations that prohibit the extension of sewer service into environmentally sensitive areas
  - Documentation that a mapping revision or waiver had been obtained from USEPA

11. IS THE PROPOSAL REQUIRED AS PART OF AN ADMINISTRATIVE ORDER, COURT ORDER, NJDEP ADMINISTRATIVE CONSENT ORDER (ACO), OR A JUDICIAL CONSENT ORDER TO WHICH THE NJDEP IS A PARTY, FROM A STATE OR FEDERAL COURT?

- Yes \(\checkmark\)
- No

If yes, attach Order.

12. Evidence of notification and offer of consultation with affected governmental agencies (including, as applicable, the following entities):

- Designated Planning Agency (DPA)
- Wastewater Management Planning (WMP) Agency
- Municipal Governing Bodies
- Municipal Planning Boards
- County Planning Boards
- Sewerage Authorities/Municipal Authorities/Joint Meetings/PVSC
- Delaware River Basin Commission
- Pinelands Commission
- Highlands Council
- Delaware River Basin Commission
- NJ Sports & Exposition Authority
- Water Purveyors

13. SUPPLEMENTAL INFORMATION FOR WMPs (WMP AGENCY ONLY)

- DETAILED PROJECT DESCRIPTION
- COMPLETED ENVIRONMENTAL ANALYSES
  - Wastewater Capacity-Build Out Analysis
  - Wastewater Treatment Plant/Sewer Service Area Mapping
  - Wastewater Capacity – Septic Area/Nitrate Dilution Analysis
14. CERTIFICATION:
I HEREBY CERTIFY THAT TO THE BEST OF MY KNOWLEDGE, THE ABOVE INFORMATION IS
ACCURATE AND THAT I HAVE THE AUTHORITY TO MAKE THIS APPLICATION TO AMEND THE
WATER QUALITY MANAGEMENT PLAN.

Re: Sparta Warehouses – Diamond Chip Realty
Water Quality Management Plan Amendment
Block 12008, Lot 23
33 Demarest Road
Sparta Township, Sussex County, New Jersey

Dear Ms. Sylvester:

On behalf of Diamond Chip Realty, LLC, Natural Systems Utilities (NSU) is hereby submitting the attached documentation in preparation in support of a site-specific amendment to the Sussex County Water Quality Management Plan. The proposed Sparta Warehouse development, to be located at 33 Demarest Road on Block 12008, Lot 23, has a proposed wastewater generation of approximately 10,000 gpd, that will be treated by an on-site wastewater treatment facility discharge to groundwater. The table below shows the proposed unit breakdown for the development and the associated wastewater generation.

### Projected Wastewater Flows

<table>
<thead>
<tr>
<th>Use</th>
<th>Unit Type</th>
<th>Number of Units</th>
<th>Projected Flow (gpd/Unit)</th>
<th>Hydraulic Load (gpd)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Warehouse (approx. 834,680 sq ft)</td>
<td>Employee</td>
<td>200</td>
<td>25</td>
<td>5,000</td>
</tr>
<tr>
<td>Office (45,000 sq ft)</td>
<td>Square Foot</td>
<td>45,000</td>
<td>0.1</td>
<td>4,500</td>
</tr>
<tr>
<td>Delivery/Transit Personnel</td>
<td>Person</td>
<td>100</td>
<td>5</td>
<td>500</td>
</tr>
<tr>
<td><strong>Total Projected Wastewater Flow (gpd)</strong></td>
<td></td>
<td></td>
<td></td>
<td><strong>10,000</strong></td>
</tr>
</tbody>
</table>
Block 12008 Lot 23 is currently designated as its own Sewer Service Area for NJPDES Permit NJ0098621 (Sparta Sand and Gravel Co.) in NJDEP and Highlands Council databases. This SSA was removed from a draft Sussex County Future Sewer Service Area Map in 2017, however this draft has not been adopted by NJDEP. The amendment would change the use of the site and propose a discharge to groundwater of treated sanitary wastewater of 10,000 gpd. The project is located within the Highlands Planning Area.

Attached for your review please find five (5) copies of the following documents and one (1) CD:

- WQMP Amendment Summary Report (with associated mapping and forms in the appendices)
- WQMP Amendment Application Forms A & B (in Summary Report Appendix)
- USGS Map
- Letter to Sparta Township requesting resolution
- CD with application documents and Shapefile of SSA

Please contact me if you have any questions or require additional information at (908) 431-7068 or jriedel@nsuwater.com.

Sincerely,

Jens Riedel, P.E., CFM
Senior Project Engineer

N:\PROJECTS\E017s\E01715AA Diamond Sand and Gravel7- Deliverables\WQMP Application to Sussex Cnty\2021 05 25 Diamond SG Sussex Only WQMP Appl Cover Letter.docx
All,

Please see the attached meeting minutes from this past Tuesday's pre-application meeting for the proposed warehouse facility at 33 Demarest Road. Please contact our office if there are any discrepancies. Have a happy and safe holiday!

Best,

Brian

Celebrating 14 years as one of FORTUNE's 100 Best Companies to Work For
The following statements were the key items discussed during the Teams meeting held on Tuesday, May 25th regarding the FCL Sparta Project:

1. **Overview of Meeting Discussion**
   
   1. **Zoning requirements**
      a. Proposed Concept Site Plan complies with permitted use and all bulk requirements for Economic Development zone
         i. Warehouse / Storage
         ii. Minimum front, rear and side yard setbacks
         iii. Minimum lot size
         iv. Maximum building height
         v. Maximum building coverage
         vi. Maximum parking area coverage
         vii. Maximum impervious coverage
         viii. Minimum parking
            1. 352 required (based upon 1 space / 2,500 sf)
            2. 348 spaces proposed
            3. 119 landbanked (future) spaces
2. Traffic impact
   a. Preliminary trip generation (automobiles and trucks, before any reductions due to rail) for LUC 150: Warehousing
      i. 150 trips - AM peak
      ii. 167 trips - PM peak
   b. Impact to County/State roadways not yet assessed
   c. Traffic count of existing site operations could serve as benchmark
      i. Subtracting current traffic from site may complicate future efforts to relocate facility
   d. Traffic study will be the key focus of residents
      i. Identify amount of truck traffic
      ii. Request previous traffic studies from Town/PB Engineer
3. Stormwater management
   a. Applicant will likely seek waiver to exceed 2.5-acre watershed
   b. Town and Applicant are aware of existing offsite drainage issues
   c. Design will infiltrate clean stormwater runoff to the extent practical
   d. Applicant understands local significance of water quality measures and aquifer protection
4. Sanitary
   a. 7.9 submitted to County for 1,999 gallons per day
      i. Estimated flow based on delivery drivers and limited on-site personnel
   b. 2.41-acre septic field to be reserved for future expansion

The statements and information represents our understanding of the items discussed in the referenced meeting. If Kimley-Horn and Associates, Inc. has misrepresented any statements made by any of the attendees, please notify us immediately so that we may revise and redistribute the meeting minutes. If no response is received within five business days, the information contained in this document will be considered true and accurate.

Diana Katzenstein - RE: RE: Diamond Chip Realty WQMP Amendment Resolution - 33 Demarest Road

From: Stan Puszcz <stan.puszcz@cpengineers.com>
To: Kathleen Chambers <Kathleen.Chambers@spartanj.org>, Diana Katzenstein
Date: 7/1/2021 5:36 PM
Subject: RE: RE: Diamond Chip Realty WQMP Amendment Resolution - 33 Demarest Road

Kate:

This is not a planning/zoning matter. It should be handled by my office.

Before we do anything, I will first discuss this with Neil after he is back.

Stan

Subject: Fwd: RE: Diamond Chip Realty WQMP Amendment Resolution - 33 Demarest Road

Good morning Diana,
I believe this should go to you; check with the attorney. I printed the documents so I'll bring them over to you.
Kate

CONFIDENTIALITY NOTICE: This electronic message contains information from the Township of Sparta, New Jersey.
Hello Kate,

Attached are the documents that I had previously sent in late May as hard copies regarding our request for a resolution supporting an amendment to the WQMP for the Diamond Chip Realty warehouse project on the current Sparta Redi-Mix site on Demarest Road. This WQMP amendment application is currently under review by Sussex County but they require the resolution from Sparta Township to move the application into the next phase. If this resolution could be addressed at the next meeting, that would be much appreciated.

Attached please find the following:

- Request cover letter to Sparta Township (I have also provided the Word document so the resolution text can be copied)
- WQMP amendment cover letter to Sussex County
- Summary Report of proposed amendment
- WQMP Forms A and B
- USGS Map

If there is a problem receiving these files because of their size, please let me know and I can provide a link to download them. As per your previous response, we will not be providing additional hard copies.

Please confirm receipt and the expected schedule for providing the resolution.

Thank you,

Jens
Thanks,
Kate

If you are ok with receiving the files electronically, then I can send them tomorrow. The supporting documents will be in PDF but I will provide sample text for the resolution that was provided to me by the County in Word format so it can be copied and pasted easily. Would you still need hard copies? I would rather avoid making unnecessary copies/prints if you don’t need them.

Thanks,
Jens

Yes. Please send it in word format. I’ll send it to the engineer and the interim township manager. Not sure how I could have missed it.
Best,
Kate

My letter was the request for a resolution with the backup documents so it wouldn’t have gotten on the agenda yet. I will have to resend it then.

It's possible. Do you know the date that it was on the council agenda. I just did a search of my resolutions from 2003 to 2021 and come up with nothing.

Hi Kate,

I had addressed it directly to you at the 65 Main Street address. It was sent by certified mail. I don't seem to have the green receipt though. However, according to the online tracking, it was delivered on May 28th. Could it have possibly ended up on someone's desk?

Hello Kathleen,

At the end of May I sent you a request for a resolution supporting a proposed Water Quality Management Plan amendment for the Diamond Chip Realty project at 33 Demarest Road (currently Sparta Redi-Mix). This application is currently under review by Sussex County but they require the resolution for a complete application. Can you please let me know the status of this resolution?

Thank you,
Jens

To: Stan Puszcz <stan.puszcz@cpengeineers.com>
Subject: FW: FCL Sparta - Site Plan Application

Stan, see below from our engineers on Frank's project. Can we schedule another informal meeting? We could do in-person or by zoom. We'd like to get a final take from you on it and then we will be submitting for preliminary site plan approval over the next few weeks. Hoping to incorporate any comments from you based on the attached in our initial submission.

Thanks, Steve

Subject: RE: FCL Sparta - Site Plan Application

Hi Steve,

Thanks for reaching out to Stan to get the process started. Attached is the current Overall Site Plan for the project which includes the bulk zoning table (no variances proposed). Please share with Stan and arrange a date for the page-turn.

Has the Town provided any insight on the timing for a hearing (and corresponding filing deadline)? We will be submitting each of the applicable 62 site plan checklist items with the possible exception of the Environmental Impact Statement – please advise if we can request a waiver since we will be providing separate environmental reports. Let us know when a page-turn date has been scheduled and if there are any questions with the application. Thank you.

Have a great weekend,
Brian

Stan, see below from our engineers on Frank’s project. Can we schedule another informal meeting? We could do in-person or by zoom. We’d like to get a final take from you on it and then we will be submitting for preliminary site plan approval over the next few weeks. Hoping to incorporate any comments from you based on the attached in our initial submission.

Thanks, Steve

RE: Preliminary Site Plan Application Submittal
Diamond Chip Logistics Park
33 Demarest Road
Township of Sparta, Sussex County, New Jersey

Dear Ms. Katzenstein:

Kimley-Horn and Associates, Inc. is pleased to submit our preliminary site plan application package for the subject property. This letter and associated documentation are provided for your office's review in furtherance of the required completeness review. The applicant is not requesting checklist waivers or variance relief. Please contact our office if your review determines otherwise.

The applicant previously established a review escrow account and would like the Township to confirm application fees. Applicant will remit the applicable application fees upon receipt of confirmation from the Township.

Thank you for your time with and consideration of this matter. If any questions, concerns, or issues arise, please contact me via email or phone at tony.diggan@kimley-horn.com or 609-681-2434.

Sincerely,

Tony W. Diggan, P.E.

Subject: Diamond Chip Industrial Park - 1/19 Hearing Scheduled

David,

Happy New Year! Given recent events, I hope this finds you and yours healthy!

Any questions thus far on our application? If you haven’t been able to get started on the review, do you have an idea if we’ll be seeing any comments before the hearing date?

Best,
Tony

Kimley-Horn

<!-[if mso 9]--> !-[endif]-->
Hi all, I know we are scheduled for public hearing on March 2. When can we expect review letters? We would like to have time to address any issues raised in advance of the hearing. It is a short month, so we really do not have that much time.

Re: Diamond Chip Realty, LLC (the “Applicant”)
Block 120008, Lot 23 /Planning Board Application #689
Confirmation of Carried Hearing Date / Extension of Time

Dear Ms. Katzenstein:

As you are aware, this firm represents the Applicant in the above-referenced matter. The Applicant was previously scheduled and did notice for the Board’s January 19, 2022 meeting. The Applicant understands that the Board will take jurisdiction of the application on January 19, 2022, but will carry the application to March 2, 2022 to allow more time for Board staff and internal Township agency reviews.

Given that the Board’s consideration of the application will be carried, on the record, to a date certain, the Applicant does not anticipate re-noticing. However, to the extent the March 2nd meeting is in-person, or if the call-in or virtual meeting information changes between now and March 2nd, the Applicant will be required to renotice. If any of those circumstances should come to pass, please let me know immediately so that I can make the necessary arrangements.

Finally, to the extent required, the Applicant hereby consents to an extension of time for the Board to act on the application through April 2022 to allow for a hearing in March and potential Board resolution in April.
Thank you for your attention to this matter.

Very truly yours,

STEVEN P. GOUIN
MEMORANDUM TO: Sparta Township Planning Board

FROM: David B. Simmons, Jr., P.E., L.S., C.M.E.

SUBJECT: Application #689 -- Site Plan for Diamond Chip Logistics Park
Block 12008, Tax Lot 23
Located at 33 Demarest Road
Sparta Township, Sussex County
HPA No. 21-150

Dear Board Members:

The site plan proposal before the Board proposes the following:

1. The existing concrete manufacturing facility will be discontinued.
2. A 506,880 SF warehouse will be constructed.
3. A 373,600 SF warehouse will be constructed.
4. A railroad spur will be extended into the subject property and run adjacent to the 373,600 SF warehouse.
5. Three hundred and seven (307) parking spaces will be constructed.
6. One hundred and nineteen (119) parking spaces will be designed but “banked” for future use.
7. A new on-site sewage treatment plant and septic field will be constructed.
8. Stormwater management basins will be constructed.

Based on a review of the documents submitted and an on-site inspection, I have the following comments:

February 9, 2022
1. The plans and documents reviewed are as follows:

a. Site Plan prepared by Kimley Horn, consisting of the following 35 sheets:

</tbody>
</table>

2. **ZONING**

   a. The subject property is located in the Economic Development ED Zone and is subject to the following bulk requirements:

<table>
<thead>
<tr>
<th>ED Zone Requirement</th>
<th>Required</th>
<th>Proposed</th>
</tr>
</thead>
<tbody>
<tr>
<td>Lot Area</td>
<td>80,000 SF min.</td>
<td>2,963,756 SF</td>
</tr>
<tr>
<td>Side Yard – Building/Parking</td>
<td>30/25 ft. min.</td>
<td>104 ft./54 ft.</td>
</tr>
<tr>
<td>Front Yard – Building/Parking</td>
<td>100/50 ft. min.</td>
<td>216 ft./52 ft.</td>
</tr>
<tr>
<td>Rear Yard – Building/Parking</td>
<td>50/25 ft. min.</td>
<td>329 ft./503 ft.</td>
</tr>
<tr>
<td>Maximum Impervious Coverage</td>
<td>65% max.</td>
<td>54.0%</td>
</tr>
<tr>
<td>Maximum Building Height</td>
<td>56 ft. max.</td>
<td>&lt;56 ft.</td>
</tr>
<tr>
<td>Maximum Building Coverage</td>
<td>45%</td>
<td>29.7%</td>
</tr>
<tr>
<td>Maximum Building Area Coverage</td>
<td>45%</td>
<td>24.3%</td>
</tr>
</tbody>
</table>

   b. The Zoning Chart indicates the proposed use is warehouse/storage. The architectural plans indicate the buildings are for manufacturing/logistics. Applicant to clarify the proposed use.

3. **SITE PLAN**

   a. At the intersection of Demarest Road and Prices Lane, a sight triangle easement should be reserved over the westerly corner of the subject property and be conveyed to the Township.

   b. A sight triangle easement is shown on Demarest Road on Block 12002 Tax Lot 13, in order to provide sufficient sight distance from the proposed northerly access drive looking to the south. The Applicant will have to obtain this easement from the owner of Lot 13, North Jersey Properties, LLC.
Site Note #13 on Sheet C-400 refers to standard duty and heavy duty asphalt pavement in various areas. The pavement box for each pavement type must still be provided and be reviewed.

d. The site plan shows directional arrows to maintain a certain traffic flow around the two proposed buildings. Additional on-site directional signage will be needed to help guide tractor-trailers in the correct direction and loading docks.

e. Structural calculations by a New Jersey licensed professional engineer for the proposed retaining wall on the southerly end of the site to be provided.

f. A portion of the proposed fire access lane crosses through the conservation easement. Applicant to address.

g. The proposed fire access lane crosses over the proposed railroad spur extension. Any signing or safeguards required by the railroad to be provided.

h. Section 18-5.3 n.5 limits retaining wall height to 4 feet. The proposed retaining wall is about 21 feet ± high in locations.

i. Sheet C-200, Demolition Note 5 -- I believe “Independence Drive” and “Constitution Avenue” should be “Demarest Road”.

j. The boundary survey provided shows an 84 SF overlap of the subject property with adjacent Block 12008, Tax Lot 9, which is owned by the Township of Sparta. I recommend that the Applicant quit claim deed the overlap area to Sparta Township to rectify the overlap.

k. The boundary survey also shows an apparent gore area between the subject property and Block 12008, Tax Lots 5 through 9. The apparent gore varies in width from 0 feet to approximately 25 feet ± (scaled). The Applicant to address how this area can be corrected, i.e., by deeding their rights to the gore area to the neighboring properties.

4. PARKING

The Applicant indicates there will be 120 employees, and a requirement for 120 parking spaces.

By my count, the plan proposes 306 parking spaces to be provided at this time. (Plan indicates 307.)

An area to the west of Building “B” is shown as future banked parking and includes 119 additional parking spaces.
5. **STORMWATER MANAGEMENT**

a. The proposed application meets the definition of a "Major Development" and is therefore subject to meeting the current Sparta Township stormwater ordinance, and NJDEP stormwater requirements (effective March 2, 2021). The design of the proposed stormwater management facility must adequately address three main criteria, which include water quantity reductions, water quality treatment, and groundwater recharge. In addition to these three requirements are the green infrastructure design criteria that have to be incorporated into the design. The proposed development, which spans over ± 60 acres, consists of two (2) separate points of analysis to compare pre-development and post-development conditions. The water quantity reductions are being addressed by utilizing a large above-ground bioretention basin. The groundwater recharge requirement is handled by proposed dry wells that infiltrate runoff back into the soil. Runoff is conveyed through multiple stormwater systems ranging from 18" HDPE to 48" HDPE.

b. **Water Quantity**

Water quantity reductions for the various design storms have been satisfactorily met. However, the proposed bioretention basin is designed to be a Class IV dam, and requires NJDEP certification and approval.

The following items need to be addressed:

i. It is unclear where the 450-foot long weir at elevation 590.65 is and how it should operate. The Applicant's engineer to provide clarification.

ii. In addition to the "On Site Soil Testing" provided in Appendix I of the stormwater management report, the testing of permeability rates for all of the dry well locations must be consistent with procedures as outlined in Chapter 12 – "Soil Testing Criteria" of the NJDEP BMP manual.

iii. An analysis of the separation distance between the bottom layer of the bioretention basin and the seasonal high-water table (SHWT) to be submitted for review.

c. **Water Quality**

The proposed design is not subject to the water quality required 80% TSS removal rate, because the proposed development does not increase one-quarter acre or more of regulated Motor Vehicle Service area.

d. **Groundwater Recharge**

The recharge requirement has been satisfactorily addressed. Recharge occurs through the proposed dry wells.
a. A maintenance manual prepared in accordance with Chapter 8 of the NJDEP Best Practice Manual to be submitted. This document shall be recorded as per NJAC 7:8-5.8(d), upon review and approval.

f. Grate efficiency and capacity calculations of the proposed catch basins to be submitted for review.

g. Paved access drives that are no steeper than 15% must be provided for each of the two basins for monitoring and maintenance purposes.

h. As per the storm sewer conduit table, several pipes are undersized to handle the 25-year design storm. The Applicant’s engineer to verify and make revisions where necessary. Sizing calculations (100-year storm) to be provided for the discharge pipe from the bioretention basin.

6. **LIGHTING PLAN**

a. The hours of illumination for the proposed lighting to be shown on the plan, along with any lights to be left on for security purposes.

b. The wall-mounted fixtures on the easterly side of Building “A” may not be effective as shown because of the canopy over the rail loading platform. Applicant to confirm the height and location of the building lights on the “Wall Sections at Mobile Railroad Dock”.

7. **UTILITIES**

a. **Water**

i. The proposed buildings will be connected to the Township water system.

ii. The size of the water service lines and fire protection lines to be reviewed and approved by the Sparta Township Water Department and Construction Official.

iii. Applicant to confirm adequate water volume and pressure are available for the proposed site for domestic use and fire protection.

b. **Sanitary Sewer**

i. The proposed buildings will be connected to a new septic system.

ii. I note that a sanitary sewer line from the two offices on the southerly end of Buildings A and B is shown connecting to a sanitary pump house, and then running to a 90’ x 30’ septic disposal field. There is no sanitary connection shown on Sheet C-600 to the two offices at the northerly end of Buildings A and B. Applicant to explain how the northerly offices will be handled with regards to sanitary sewer.
iii. There is a 2.41 acre septic field area to the west of proposed Building B. Applicant to review the proposed septic in this area with the Board.

8. **Landscape Plan**

   a. Per Section 18-5.3o.1(d), a percent of the site equal to a minimum of 30% of all impervious surfaces shall be dedicated to plant mass areas. The Bulk Landscape Requirements table states that this has been met. However, I believe that the Applicant is taking credit for existing off-site forested area, and a design waiver is required for not meeting this requirement.

   b. Per Section 18-5.3o.3(a), the Applicant must provide a 5-foot-wide landscape buffer between the parking lot and the property line that consists of a mixture of shrubs and trees, both deciduous and evergreen. The Applicant has requested that existing forest area along the property line be credited for this buffer, as well as augmenting the buffer in specific areas with the required plantings as shown on the plan. I believe that both are adequate to meet this requirement.

   c. Per Section 18-5.3o.3(b), the Applicant must provide a 10-foot-wide landscape buffer for any parking area in the front yard. The Applicant has requested that the existing forest area in the front yard be credited for this buffer as well as augmenting the buffer in specific areas with the required plantings as shown on the plan. I believe that the forest area along Demarest Road is adequate to be credited. However, there is a gap to the north of the existing forested area and the proposed buffer planting that needs to be filled with the specified plantings.

9. **Architectural Plans**

   a. The Applicant should review the proposed building materials, colors, etc. with the Board.

   b. The location and number of HVAC units for the buildings to be shown.

   c. The application package describes the proposed buildings as "warehouses". However, the architectural plans label the buildings for "Manufacturing/Logistics". The Applicant to clarify the uses for the buildings.

   d. Are any generators (or generator) needed to support the proposed buildings? If so, where will they be located?

10. **Signs**

   a. Two (2) freestanding monument signs are proposed at each entrance off of Demarest Road. Section 18-5.3m.8(a) allows one (1) freestanding sign.

   b. The offset from the right-of-way line of Demarest Road to be provided. The minimum setback requirement is 25 feet.
c. I note that the area of the sign lettering on each of the proposed monument signs is approximately 36 SF on each side, for a total of 72 SF. Section 18-5.3 m.8(b) allows a total maximum area of all signs of 100 SF.

d. The monument signs are not shown to be illuminated. Applicant to confirm.

e. No signage has been shown on the proposed buildings. Applicant to advise if any façade signage is proposed.

f. Details of the sign footings to be reviewed by the Township Construction Official.

11. ENVIRONMENTAL IMPACT

a. Applicant to describe the types of materials to be placed in the proposed buildings. Since the subject property is located in the wellhead protection area, hazardous materials should not be placed in the buildings or be located on the subject property.

b. Sound levels for the proposed buildings to be calculated and the impact on the surrounding properties shown.

12. TRAFFIC REPORT

a. The major intersections that will be impacted by the proposed traffic from the facility are Route 15 with Houses Corner Road and Route 15 with Wilson Drive/White Lake Road, both of which are signalized.

b. The NJDOT has timed the two Route 15 traffic signals to provide as much time as possible to Route 15 traffic, in order to maximize capacity of Route 15 traffic.

c. During PM peak hours, and in particular Friday peak periods, the intersections will operate at Level of Service F.

d. The traffic study has analyzed the traffic build-out for the Year 2023. There was no other projection provided for future years.

e. The Applicant should explain their proposed hours of operation and shift distribution to the Board, and how this will factor into the impact of the development traffic on the intersections.

13. CONSTRUCTION DETAILS

a. Stability calculations signed and sealed by a licensed New Jersey professional engineer for the proposed retaining walls to be provided.

b. The pavement section for the site has not been completed. Proposed pavement thickness to be provided.
The light pole foundation detail is stamped "Preliminary". Final details to be provided for review.

Water system details to be reviewed by the Township Water Department. Note, however, that Note #5 on Sheet C-650 calls for 130 psi test pressure, and I believe the Township’s normal test pressure is 200 psi.

d. Detail #7 on Sheet C-550 to be relabeled as a “dry well” detail.

14. MISCELLANEOUS

a. Approvals are needed from the following:

i. Sussex County Planning Board – Site plan.
ii. Sparta Township Fire Prevention Bureau – Fire protection.
iii. Upper Delaware Conservation District – Soil erosion permit.
iv. Sparta Township Construction Official – Building and ADA requirements, signs.
v. Sparta Township – Land Disturbance Permit.
vi. Sparta Water & Sewer Department – Water service.
vii. Sussex County Health Department – Septic system.
viii. NJDEP – Wetlands and flood hazard, conservation easement.
ix. NYS&W Railroad – Proposed siding.
x. NJDEP – Dam Safety section.

b. An as-built plan to be prepared by the Applicant’s New Jersey licensed land surveyor upon completion of the project.

Very truly yours,

David B. Simmons, Jr., P.E., L.S., C.M.E.

RE: Application #689 — Site Plan for Diamond Chip Logistics Park
Block 12008, Tax Lot 23
Located at 33 Demarest Road
Sparta Township, Sussex County HPA No. 21-150

Dear Mr. Simmons:

We are in receipt of your Sparta Township Planning Board memo dated February 9, 2022 and prepared by the Sparta Township Planning Board Engineer regarding the above referenced project. Our office offers the following responses (in bold) to the staff review comments:

I. The plans and documents reviewed are as follows:

a. Site Plan prepared by Kimley Horn, consisting of the following 35 sheets:

<table>
<thead>
<tr>
<th>Sheet No.</th>
<th>Title</th>
<th>Latest Revision Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>C-000</td>
<td>Cover Sheet</td>
<td>11/15/2021</td>

RESPONSE: Comment Acknowledged.

RESPONSE: Comment Acknowledged.
2. ZONING

a. The subject property is located in the Economic Development ED Zone and is subject to the following bulk requirements:

<table>
<thead>
<tr>
<th>ED Zone Requirement</th>
<th>Required</th>
<th>Proposed</th>
</tr>
</thead>
<tbody>
<tr>
<td>Lot Area</td>
<td>80,000 SF min.</td>
<td>2,963,756 SF</td>

<td>216 ft./52 ft.</td>
</tr>
<tr>
<td>Rear Yard – Building/Parking</td>
<td>50/25 ft. min.</td>
<td>329 ft./303 ft.</td>
</tr>
<tr>
<td>Maximum Impervious Coverage</td>
<td>65% max.</td>
<td>54.0%</td>
</tr>
<tr>
<td>Maximum Building Height</td>
<td>56 ft. max.</td>
<td>&lt;56 ft.</td>
</tr>
<tr>
<td>Maximum Building Coverage</td>
<td>45%</td>
<td>29.7%</td>
</tr>
<tr>
<td>Maximum Building Area Coverage</td>
<td>45%</td>
<td>24.3%</td>
</tr>
</tbody>
</table>

➢ RESPONSE: Comment Acknowledged.

b. The Zoning Chart indicates the proposed use is warehouse/storage. The architectural plans indicate the buildings are for manufacturing/logistics. Applicant to clarify the proposed use.

➢ RESPONSE: The proposed use is warehouse/storage; the plans will be updated and submitted for review.

3. SITE PLAN

a. At the intersection of Demarest Road and Prices Lane, a sight triangle easement should be reserved over the westerly corner of the subject property and be conveyed to the Township.

➢ RESPONSE: Prices Lane appears to be a local roadway under municipal jurisdiction. Based on aerial imagery and the tax map, a portion of the northwestern quadrant of that intersection appears to be maintained as a sight triangle easement. The Applicant respectfully requests that the Township review their records to confirm the existence of a sight triangle easement.
b. A sight triangle easement is shown on Demarest Road on Block 12002 Tax Lot 13, in order to provide sufficient sight distance from the proposed northerly access drive looking to the south. The Applicant will have to obtain this easement from the owner of Lot 13, North Jersey Properties, LLC.

- RESPONSE: Applicant's engineer/surveyor will coordinate with Township Engineer to confirm Demarest Road ROW limits to confirm whether an easement is required. Based on the tax maps, adequate sight distance exists.

c. Site Note #13 on Sheet C-400 refers to standard duty and heavy-duty asphalt pavement in various areas. The pavement box for each pavement type must still be provided and be reviewed.

- RESPONSE: Comment acknowledged; the information will be provided for review.

d. The site plan shows directional arrows to maintain a certain traffic flow around the two proposed buildings. Additional on-site directional signage will be needed to help guide tractor-trailers in the correct direction and loading docks.

- RESPONSE: Comment acknowledged; the information will be provided for review.

e. Structural calculations by a New Jersey licensed professional engineer for the proposed retaining wall on the southerly end of the site to be provided.

- RESPONSE: Signed and sealed retaining wall design plans and structural calculations will be submitted for review under separate cover for any retaining wall exceeding four feet in height.

f. A portion of the proposed fire access lane crosses through the conservation easement. Applicant to address.

- RESPONSE: Applicant's engineer to provide testimony.

g. The proposed fire access lane crosses over the proposed railroad spur extension. Any signing or safeguards required by the railroad to be provided.

- RESPONSE: Comment acknowledged; the information will be provided for review.

h. Section 18-5.3.n.5 limits retaining wall height to 4 feet. The proposed retaining wall is about 21 feet ± high in locations.
RESPONSE: The section of the ordinance referenced appears to pertain to "walls." Section 18-5.3.n.9 appears to apply to "retaining walls," and the Applicant intends to meet the design criteria stated therein.

Sheet C-200, Demolition Note 5 - I believe "Independence Drive" and "Constitution Avenue" should be "Demarest Road.

RESPONSE: Comment acknowledged; the plan will be revised and resubmitted for review.

The boundary survey provided shows an 84 SF overlap of the subject property with adjacent Block 12008, Tax Lot 9, which is owned by the Township of Sparta. I recommend that the Applicant quit claim deed the overlap area to Sparta Township to rectify the overlap.

RESPONSE: Applicant's engineer/surveyor is reviewing this condition and will provide a response.

The boundary survey also shows an apparent gore area between the subject property and Block 12008, Tax Lots 5 through 9. The apparent gore varies in width from 0 feet to approximately 25 feet ± (scaled). The Applicant to address how this area can be corrected, i.e., by deeding their rights to the gore area to the neighboring properties.

RESPONSE: Applicant's engineer/surveyor is reviewing this condition and will provide a response.

4. PARKING

The Applicant indicates there will be 120 employees, and a requirement for 120 parking spaces.

RESPONSE: Applicant's Engineer to provide testimony to address this comment.

By my count, the plan proposes 306 parking spaces to be provided at this time. (Plan indicates 307.)

RESPONSE: Applicant's Engineer to provide testimony to address this comment.

An area to the west of Building "B" is shown as future banked parking and includes 119 additional parking spaces.

RESPONSE: Comment acknowledged.
5. STORMWATER MANAGEMENT

a. The proposed application meets the definition of a "Major Development" and is therefore subject to meeting the current Sparta Township stormwater ordinance, and NJDEP stormwater requirements (effective March 2, 2021). The design of the proposed stormwater management facility must adequately address three main criteria, which include water quantity reductions, water quality treatment, and groundwater recharge. In addition to these three requirements are the green infrastructure design criteria that have to be incorporated into the design. The proposed development, which spans over ± 60 acres, consists of two (2) separate points of analysis to compare pre-development and post-development conditions. The water quantity reductions are being addressed by utilizing a large above ground bioretention basin. The groundwater recharge requirement is handled by proposed dry wells that infiltrate runoff back into the soil. Runoff is conveyed through multiple stormwater systems ranging from 1 8" HDPE to 48" HDPE.

➤ RESPONSE: Comment acknowledged.

b. Water Quantity

Water quantity reductions for the various design storms have been satisfactorily met. However, the proposed bioretention basin is designed to be a Class IV dam, and requires NJDEP certification and approval.

The following items need to be addressed:

i. It is unclear where he 450-foot long weir at elevation 590.65 is and how it should operate. The Applicant's engineer to provide clarification.

➤ RESPONSE: Applicant's Engineer to provide testimony to address this comment.

ii. In addition to the "On Site Soil Testing" provided in Appendix I of the stormwater management report, the testing of permeability rates for all of the dry well locations must be consistent with procedures as outlined in Chapter 12 - "Soil Testing Criteria" of the NJDEP BMP manual.

➤ RESPONSE: Comment acknowledged, will comply.

iii. An analysis of the separation distance between the bottom layer of the bioretention basin and the seasonal high-water table (SHWT) to be submitted for review.

➤ RESPONSE: Comment acknowledged, will comply.
c. **Water Quality**

The proposed design is not subject to the water quality required 80% TSS removal rate, because the proposed development does not increase one-quarter acre or more of regulated Motor Vehicle Service area.

► **RESPONSE:** Comment acknowledged.

d. **Groundwater Recharge**

The recharge requirement has been satisfactorily addressed. Recharge occurs through the proposed dry wells,

► **RESPONSE:** Comment acknowledged.

e. **A maintenance manual prepared in accordance with Chapter 8 of the NJDEP Best Practice Manual to be submitted.** This document shall be recorded as per NJAC 7:85.8(d), upon review and approval.

► **RESPONSE:** Will Comply.

f. **Grate efficiency and capacity calculations of the proposed catch basins to be submitted for review.**

► **RESPONSE:** Information to be submitted for review.

g. **Paved access drives that are no steeper than 15% must be provided for each of the two basins for monitoring and maintenance purposes.**

► **RESPONSE:** The Applicant's engineer will work with the Township Engineer regarding the basin access requirements.

h. **As per the storm sewer conduit table, several pipes are undersized to handle the 25 year design storm. The Applicant's engineer to verify and make revisions where necessary. Sizing calculations (100-year storm) to be provided for the discharge pipe from the bioretention basin.**

► **RESPONSE:** Information to be submitted for review.

6. **LIGHTING PLAN**

a. **The hours of illumination for the proposed lighting to be shown on the plan, along with any lights to be left on for security purposes.**

► **RESPONSE:** Applicant's Engineer to provide testimony to address this comment.

b. **The wall-mounted fixtures on the easterly side of Building "A" may not be effective as shown because of the canopy over the rail loading platform. Applicant to confirm**
the height and location of the building lights on the "Wall Sections at Mobile Railroad Dock".

- **RESPONSE: Information to be submitted for review.**

7. **UTILITIES**

   a. **Water**

      i. The proposed buildings will be connected to the Township water system.

         - **RESPONSE: Comment acknowledged.**

      ii. The size of the water service lines and fire protection lines to be reviewed and approved by the Sparta Township Water Department and Construction Official.

         - **RESPONSE: Comment acknowledged.**

      iii. Applicant to confirm adequate water volume and pressure are available for the proposed site for domestic use and fire protection.

         - **RESPONSE: Comment acknowledged.**

   b. **Sanitary Sewer**

      i. The proposed buildings will be connected to a new septic system.

         - **RESPONSE: Comment acknowledged.**

      ii. I note that a sanitary sewer line from the two offices on the southerly end of Buildings A and B is shown connecting to a sanitary pump house, and then running to a 90' x 30' septic disposal field. There is no sanitary connection shown on Sheet C-600 to the two offices at the northerly end of Buildings A and B. Applicant to explain how the northerly offices will be handled with regards to sanitary sewer.

         - **RESPONSE: Applicant's Engineer to provide testimony to address this comment.**

      iii. There is a 2.41-acre septic field area to the west of proposed Building B. Applicant to review the proposed septic in this area with the Board.

         - **RESPONSE: Applicant's Engineer to provide testimony to address this comment.**
8. LANDSCAPE PLAN

a. Per Section 18-5.30.1(d), a percent of the site equal to a minimum of 30% of all impervious surfaces shall be dedicated to plant mass areas. The Bulk Landscape Requirements table states that this has been met. However, I believe that the Applicant is taking credit for existing off-site forested area, and a design waiver is required for not meeting this requirement.

> RESPONSE: The Applicant’s engineer will work with the Township Engineer to meet the buffer requirements.

b. Per Section 18-5.30.3(a), the Applicant must provide a 5-foot-wide landscape buffer between the parking lot and the property lines that consists of a mixture of shrubs and trees, both deciduous and evergreen. The Applicant has requested that existing forest area along the property line be credited for this buffer, as well as augmenting the buffer in specific areas with the required plantings as shown on the plan. I believe that both are adequate to meet this requirement.

> RESPONSE: Comment acknowledged.

c. Per Section 18-5.30.3(b), the Applicant must provide a 10-foot-wide landscape buffer for any parking area in the front yard. The Applicant has requested the existing forest area in the front yard be credited for this buffer as well as augmenting the buffer in specific areas with the required plantings as shown on the plan. I believe that the forest area along Demarest Road is adequate to be credited. However, there is a gap to the north of the existing forested area and the proposed buffer planting that needs to be filled with the specified plantings.

> RESPONSE: The Applicant’s engineer will work with the Township Engineer to meet the buffer requirements.

9. ARCHITECTURAL PLANS

a. The Applicant should review the proposed building materials, colors, etc. with the Board.

> RESPONSE: The submitted architectural rendering indicates the proposed color scheme – pale gray and white for both buildings – neutral colors on a painted precast concrete façade.

b. The location and number of HVAC units for the buildings to be shown.

> RESPONSE: Applicant’s Architect to provide testimony to address this comment.
c. The application package describes the proposed buildings as "warehouses". However, the architectural plans label the buildings for "Manufacturing/Logistics". The Applicant to clarify the uses for the buildings.
   ➢ RESPONSE: The buildings are to be used for storage/warehousing.

d. Are any generators (or generator) needed to support the proposed buildings? If so, where will they be located?
   ➢ RESPONSE: Generators are not needed to support the buildings. Generators are not provided.

10. SIGNS

a. Two (2) freestanding monument signs are proposed at each entrance off of Demarest Road. Section 18-5.3.m.8(a) allows one (1) freestanding sign.
   ➢ RESPONSE: Applicant's Engineer will provide testimony to address this comment.

b. The offset from the right-of-way line of Demarest Road to be provided. The minimum setback requirement is 25 feet.
   ➢ RESPONSE: Applicant's Engineer will provide testimony to address this comment.

c. I note that the area of the sign lettering on each of the proposed monument signs is approximately 36 SF on each side, for a total of 72 SF. Section 18-5.3.m.8(b) allows a total maximum area of all signs of 100 SF.
   ➢ RESPONSE: Applicant's Engineer will provide testimony to address this comment.

d. The monument signs are not shown to be illuminated. Applicant to confirm.
   ➢ RESPONSE: Applicant's Engineer will provide testimony to address this comment.

e. No signage has been shown on the proposed buildings. Applicant to advise if any facade signage is proposed.
   ➢ RESPONSE: Applicant's Engineer will provide testimony to address this comment.

f. Details of the sign footings to be reviewed by the Township Construction Official.
   ➢ RESPONSE: Sign footing details will be provided for review.

11. ENVIRONMENTAL IMPACT
iv. Sparta Township Construction Official — Building and ADA requirements, signs.

► RESPONSE: Comment acknowledged.

v. Sparta Township — Land Disturbance Permit.

► RESPONSE: Comment acknowledged.

vi. Sparta Water & Sewer Department — Water service.

► RESPONSE: Comment acknowledged.

vii. Sussex County Health Department — Septic system.

► RESPONSE: Comment acknowledged.

viii. NJDEP — Wetlands and flood hazard, conservation easement.

► RESPONSE: Comment acknowledged.

ix. NYS&W Railroad — Proposed siding.

► RESPONSE: Comment acknowledged.

x. NJDEP - Dam safety section.

► RESPONSE: Comment acknowledged. A Class IV Dam is local approval and is an NJDEP Permit-by-Rule.

b. An as-built plan to be prepared by the Applicant's New Jersey licensed land surveyor upon completion of the project.

► RESPONSE: Comment acknowledged.

Please contact my office at 609-681-2428 if you have questions regarding the project or this response letter.

Sincerely,

Kimley-Horn and Associates, Inc.

If you have received this transmission in error, please forward same to sender and destroy the original transmission and its attachments without reading or saving it in any manner. Thank you.
The Sparta Township Environmental Commission has reviewed the application submitted by Diamond Chip Realty, LLC for a proposed Diamond Chip Logistics Park.

The Commission's comments and questions are organized as follows:
1. Rare/Protected Species on-site and in immediate area
2. Air Quality / Pollution / Impact of Traffic
3. Impervious Surface
4. Stormwater Management
5. Environmental Impact Statement
6. Water Resources / Conservation Easement
7. Hazardous Materials
8. Miscellaneous (Lighting, Permeable Pavement, Landscape Plan, Solar, EV Charging, Noise)
9. Quality of Life
10. Conclusion

Key size and scope attributes:
- 880,000 square feet of warehouse space
- 191 truck door bays
- Two (2) warehouses, each with length of 1,152 feet (over 1/5 mile) and height of approximately 45 feet
- Total lot size: 68 acres
- Straight-line distance from property edge to Route 15: approximately 1/5 mile

1. Rare/Protected Species on-site and in immediate area:

Rare species and habitats will likely be subjected to significant short- and long-term risk from this proposed development. The Environmental Impact Statement (EIS) provided by the applicant contains a report from the New Jersey Department of Environmental Protection, Office of Natural Lands Management, dated August 5, 2020. The DEP report is based on the Natural Heritage Database, Landscape Project habitat mapping, and the Biotics Database Report (see digital application packet pages 362-381). This data-based report shows the presence of the following at-risk species and habitats which have Federal and/or State of NJ protection status.

ON the actual project site:
- 4 species of rare Birds with State of NJ Protection Status of “Special Concern”. Two of these species use the property for breeding.
Dave,

Do you have a few minutes this afternoon or tomorrow morning to have a quick chat about the review letter/responses? I wanted to clarify a couple of things before the hearing. Please advise.

Best,
Tony
We got it. I was on a call with the team when this came in. We will get this one and Tom, yes, we will comply with EV parking requirements.

Steve

Please have your engineer confirm the plans will be revised to comply with the NJ State ordered EV parking. Stan Puszczyk and Dave Clark will also give your team a site plan detail to correct.
Thank you,

SPARTA TOWNSHIP PLANNING BOARD
LEGAL NOTICE OF HEARING

This notice is being sent to you, as an owner of property within 200 feet of the subject property for which this application is being filed in accordance with the requirements of the Sparta Township Planning Board.

Please take notice that, on April 6, 2022 at 7:00 pm the Sparta Township Planning Board will conduct a public hearing to consider application #689, the application of Diamond Chip Realty, LLC, which involves property located at 33 Demarest Road, Sparta, NJ also known as Block 12008, Lot 23 as shown on the tax maps of the Township of Sparta. The hearing will take place IN-PERSON at the Sparta Township Municipal Building, 65 Main Street, Sparta, NJ 07871, in the Main Court Room. The property that is the subject of the application includes approximately 2,934,064 s.f. and is located in the Township’s Economic Development or “ED” Zone.

The property is the site of the existing Sparta Redi-Mix/Diamond Sand & Gravel processing plant and production facility. The applicant proposes to raze the property of its existing improvements and to redevelop the property with a rail-served warehouse/storage facility (a permitted use in the ED Zone) that is proposed to be inclusive of two warehouse buildings of (approximately) 506,880 s.f. and 373,600 s.f., respectively; drive aisles; parking lots; stormwater management facilities; lighting; landscaping; and other ancillary and typical site improvements commensurate of a project of this size and scope. With this application, the applicant seeks preliminary major site plan approval pursuant to N.J.S.A. 40:55D-49, et. seq. and the Township’s Land Use Ordinance. The applicant proposes no variances with this applicant, but will, without additional public notice, request any and all additional variances, exceptions, waivers, permits, approvals or licenses deemed necessary or appropriate by the Board or its professionals which may arise during the hearing process.

This notice is given pursuant to the New Jersey Municipal Land Use Law, N.J.S.A. 40:55D-1, et. seq. All maps and documents for which approval is sought at the hearing shall be available for inspection at least ten (10) days before the hearing, during regular business hours, in the Planning Office of the Township of Sparta at 65 Main Street, Sparta, NJ 07871. If you have questions regarding accessing the materials that are the subject of this application, you may call the Planning Board’s Secretary at 973-729-8093. Any interested party may appear at the hearing on this application, at the above-stated time and location, and be heard on this application during the public question and comment period(s).

DIAMOND CHIP REALTY, LLC
By: Steven P. Gouin, Esq.

125 Half Mile Road, Suite 300
Red Bank, NJ 07701
Good afternoon all,

Please see the attached email regarding the subject matter.

Thank you and enjoy your weekend,

Diana

Dear Ms. Katzenstein,

Attached is our resubmittal supporting the Preliminary Site Plan Application for the Diamond Chip Industrial Park Project. The following information is being provided in the link in response to specific questions that were raised at the March 2, 2022, Planning Board Hearing:

1. Revised Preliminary Site Plan dated March 24, 2022 – select sheets, including:
   a. C-000 - Cover Sheet – updated revision date of March 24, 2022
   b. C-400 - Overall Site Plan Sheet – revised employee parking count, revised dock door count, removal of 2nd ground-mounted sign adjacent to the northern driveway
   c. C-700 - Overall Lighting Plan Sheet – revised building mounted fixtures to canopy fixtures over box car loading
   d. C-800 - Overall Landscape Plan Sheet – revised buffer along Demarest Road to ensure continuous buffer planting, added additional figure demonstrating compliance with landscape coverage requirement

2. Revised Traffic Study dated March 24, 2022 – added existing condition summary for Sparta RediMix operation as requested

3. A copy of the Sussex County Department of Health - 7:9 Sanitary Approval for 2,000 gpd system

4. A copy of the Environmental Impact Statement (per request from Planning Board Secretary)

Please contact us with any comments or questions.
